[30] Grids will close 3 minutes before the start time of the race. At this time, any kart not in position will forfeit their grid allocation, and the grid will be re-allocated. Karts will be incrementally moved forward, and late arriving karts will be put to the back. Drivers must start the race from these new grid positions. Should a driver so penalised not remain in this place until crossing the start line, at the start of the race, then he/she will be excluded from the race.

[31] It is forbidden to work on karts when the grid is closed. Any kart requiring work must be removed from the grid, and will be treated as a late arriving kart. The CoC may, at their discretion, permit a period to change **TYRES ONLY** on karts already gridded. This is only when the conditions deteriorate on the grounds of safety. To complete any other adjustments the kart must be removed from the grid and is then subject to [30] above.

[32] Penalties will be as defined in the appropriate section of the 2019 Motorsport UK Year book. Start line infringements or any driver gaining places between the pit lane and the start line, may be penalised by the deduction of one full lap at the discretion of the Clerk of the Course or his deputy. The penalty for a jump start will be a penalty of 5 seconds, or 5 places if the competitor has a lead of more than 5 seconds, at the discretion of the Clerk of the Course or his deputy in liaison with the start line observer/lap scorers.

This must be shown at any time to any official who requests it. **An orange reflective tabard (not supplied)** must also be worn at all times whilst on the track. For Cadet and Minimax races 12 Incident Marshalls shall be allowed onto the circuit and must remain at the designated post. Any incident Marshall not going to, or remaining at, the appointed marshal's post will not be allowed onto the circuit for any following heats/races. Incident Marshalls may take remote starters on to the circuit where the class regulations allow these units. The Clerk of the Course or his deputy may, at his/her discretion, ask any or all incident Marshalls to leave the circuit at any time. Incident Marshalls are allowed onto the circuit only to assist the junior racers by getting stricken karts to a place of safety - signalling to your driver, filming or timing etc. or leaving the circuit before the end of the session/heat/race is not permitted.

[36] Any competitor shown the technical warning flag (Black with Orange spot) must leave the circuit by the pit road and may carry out repairs, in the designated area, then slowly re-join the circuit by the route specified. **Do not drive around the circuit if you lose an exhaust** – pull up to a point of safety as soon as possible. Attention is drawn to [33] above re speed in the pit lane. No mechanical work on any kart is allowed on the circuit.

[37] The starting and/or revving of engines in the pit area and circuit boundaries, apart from where instructed by the dummy grid marshal, is strictly forbidden and may result in the exclusion from the meeting of the competitor concerned. Where karts are allowed to start their engines on the dummy grid the driver must be sat in the kart with his/her foot on the brake pedal at all times when the engine is running. The lifting of the rear of the kart while the engine is running is strictly prohibited. Breach of these regulations may result in the exclusion from the meeting of the competitor concerned.

[38] The Scrutineering bay and Parc Fermé are out of bounds to all except the driver and one mechanic/helper per driver. Parc Fermé starts at the entrance to the pit road and ends at the pit lane exit. [43] It is the responsibility of all competitors to ensure that the correct chassis/engine/transponder numbers etc. are recorded on the Scrutineering document as defined in the Gold Book Rule B.6. Any driver under the age of 18 years must have this document counter signed by his/her parent/legal guardian/guarantor or entrant. Only chassis/engines that appear on this document may be used during the meeting, i.e. ONE chassis and TWO engines maximum (change of crankcase will be deemed to be a change of engine). Should a chassis become damaged beyond safe repair at the track a replacement may be allowed at the discretion of the Chief Scrutineer and with the approval of the Clerk of the Course. The replacement chassis should be a like for like (ie exact model) presented to the Scrutineer for inspection BEFORE any work on it takes place. All useable parts must be transferred to the replacement chassis whilst in Parc Fermé, and the bare damaged chassis left with the Scrutineer until the end of the meeting. The rebuilt kart must be presented for full safety Scrutineering before taking to the track.

[44] All competitors are responsible for both themselves and all of their team members at all times whilst on circuit property.
